CyberSecurity | Linux Server Manager | Network Specialist

Professional Summary

Results-driven Infrastructure Analyst with a strong foundation in Linux systems administration, network management, and cybersecurity practices. Over a decade of hands-on experience supporting critical IT environments, ensuring high availability, performance, and security of infrastructure services. I've been involved in the IT field since 2006, contributing to a range of projects across mixed infrastructure and technology environments.

Top Skills

- Agreement: (Best practices Customer's Procedures) Certifications
- Linux: (Directory Access Permissions; Logins; Password Reset; Certificate Authority; Iptables; SeLinux)
- Windows: (Active Directory; GPO; Password Reset; Azure Microsoft Entra ID; Certificate Authority)
- Cybersecurity: (VPN's; MFA/2FA; Switches and Routers Port Security; Firewalls Rules)
- ITSM: (ServiceNow; CA Service Desk; SolarWinds) Incidents Management; GMUD Deploy; Tasks)
- Identity: KeePass Password Vault; Beyond Trust (Root Access; AWS IAM; Azure Entra ID)
- Inspection and Threat Hunt: (Virus total; Nmap; Nikto; Wireshark; MITRE ATT&CK Frameworks; Cisco Talos)
- E-Mail | IMSVA TrendMicro | Data Loss Prevention | Rule applies IN/OUT

Education

Network and Information Technology Technician

SENAI | FATEC

Courses and Certifications

AWS CLF-C01	AWS03252586	(Issued: 2023)
DevOps Essentials	5F5FCC6	(Issued: 2016)
LPIC-2 Linux	LPI000368146	(Issued: 2020)
LPIC-1 Linux	LPI000368146	(Issued: 2015)
Fortinet NSE 3	SL3VIIRDdhD	(Issued: 2024)
CompTIA Security+	COMP001021153743	(Issued: 2019)
CompTIA Network+	COMP001021153743	(Issued: 2017)
CCNA R&S Cisco	658568033	(Issued: 2014)
COBIT Foundation		(Issued: 2013)
ITIL V3 Foundation		(Issued: 2013)

Portuguese: Native | English: Advanced | Spanish: Basic

Experiences

CONFIDENTIAL

Infrastructure Expert | 2025 - 2026

- Led and managed the entire IT infrastructure of a small company, overseeing Helpdesk, Networking, and Cybersecurity.
- Administered hybrid environments (Windows/Linux) and implemented process improvements aligned with ITIL best practices.
- Ensured infrastructure scalability, reliability, and security compliance.

SCALA DATA CENTERS

BMS Scheduler Analyst Consultant | 2024

- Monitored and scheduled maintenance for industrial control systems and Building Management Systems (BMS) within data center environments.
- Supported critical infrastructure to maintain uptime and operational efficiency.

INFOSYS

Cybersecurity Consultant | 2023

- Participated in the planning and preparation of RFPs for IT services, focusing on cybersecurity compliance and service scope definition.
- Provided consulting on AWS security architecture and best practices.

STEFANINI

Linux SysAdmin | 2022 - 2023

- Maintained and supported Linux/Unix virtual and bare-metal servers.
- Worked on separate cybersecurity projects as a firewall analyst, managing and securing enterprise-level network perimeters.

BRADESCO by PRICEWATERHOUSECOOPERS

SOC Blue Team Senior Cybersecurity Analyst | 2021 – 2022

- Threat Hunt | Mitigate Network Scan | DDoS UPX Mitigation | Telmix PickFlow ARBOR | AED
- Cisco Umbrella DNS Security | Policies Maintaining | URL Block Lists | OpenDNS
- Cloud Security Azure | AWS | GCP | Cisco Talos | Virus Total
- SIEM | Qradar IBM | Splunk | Correlation of logs to forensics team and Chain of Custody
- EDR | Cybereason IBM | CrowdStrike Falcon | Mvision McAffer | Rollout | Ransomware and Malware Categorizations
- IDS | McAfee | IPS | Firepower Cisco | Vulnerability Hunt | MSS – Managed Security Services
- Proxy Blue Coat | Rule apply | Incident response
- E-Mail | IMSVA TrendMicro | Data Loss Prevention | Rule applies IN/OUT
- Packet Analyzer GigaMon
- Lei Geral de Proteção de Dados no 13.709/2018
- KeePass Password Vault | Beyond Trust
- MITRE ATT&CK Frameworks
- Bank transaction: PIX; SPB; Mobile Internet Banking; BACEN; CIP

C&M SOFTWARE

Hybrid Support Analyst Linux and Data Center Infrastructure | 2020 – 2021

- Sysadmin: RedHat; CentOS; Debian; SUSE; Slackware; Capacity Planning
- Virtualization: Cloud Proxmox; Containers; Docker; Ansible; Vagrant
- Monitoring: Prometheus; Grafana; Zabbix; Graylog; Splunk
- Security: Firewalls rules: FortiGate; Selinux; Iptables
- Network: Tunnel VPN (FortiGate); Network segmentation VLAN's; Figured out Broadcast Storm; Switches stack and redundant path; BGP
- Cabling: Labeling From/To in the Data Center; ABNT 14565
- Glance: Wildfly | JBoss | IBM WebSphere MQ | Bank systems: PIX; SPB; NPC; BACEN; CIP

SONDA DATA CENTER

System Analyst Linux IV | 2019 – 2020

- Sysadmin: SUSE; RedHat; Satellite – RHEV; HPUX; AIX; CentOS; Debian.
- Security: Selinux; Iptables; Nmap; Nikto; Kali Linux
- Monitoring: Nagios; Zabbix; SolarWinds
- Knowledge: Citrix; VCenter; Containers Docker; Glance: DevOps, Java | WebLogic | Tomcat
- Data Center routines: Incident response CA; Changes; Disaster Recovery and Backups: Commvault; Capacity Planning.
- Home Office | Duty.

ELO CARTOES by PROACTIVE TECHNOLOGY

Senior Support Analyst | 2018 – 2019

- Sysadmin: SUSE; RedHat; Satellite – RHEV; HPUX; AIX; CentOS; Debian.
- Transactional ELO Cartões. Start NOC
- First response regarding Linux and Network: Routers, Switches L3, Unix servers, Load balancers, F5, Firewalls
- Information Security | PCI DSS
- Financial monitoring: Credit/Debit cards - ISO 8583
- Monitoring tools: Zabbix | Grafana
- DevOps; Middleware
- Incident response

TIVIT

System Unix Analyst | 2017 – 2018

- Sysadmin, RED HAT, HPUX, AIX, CENTOS, DEBIAN.
- Information Security | Glance of Middleware
- Monitoring settings: NAGIOS; ZABBIX; CACTI
- Storage: NetApp; LUNS. Windows servers.
- Data Center routines; Incident response; Disaster recovery and Backups EQUINIX DATA CENTER SP3 – TIER III
- Network Technician IBX | 2017
- Deploy and troubleshooting network devices: Routers, Switches, Firewalls, AP and Servers: CISCO, JUNIPER, BROCADE, HP, DELL, F5,
- Security Information. Start SP3 Data Center, Cabling, Customers guide.
- Activation and troubleshooting in Cross-connections; Metro Ethernet; Fiber fusion; CAT6A
- Certified cabling: FLUKE VERSIV; JDSU VIAVI.
- S.O install, Linux DEBIAN/CENTOS; Windows; Virtualization.
- Data Center routines; Incident response; Disaster recovery and Backups.
- Contact external teams

DATA CENTER TESA - TELECOM SOUTH AMERICA

Network Technician 3 | 2015 – 2016

- Setting and troubleshooting: Routers, Switches, Access Point, Cameras CFTV and Servers: CISCO, JUNIPER, BROCADE, HP, DELL, PfSense
- Information Security.
- Setting up and troubleshooting internet links, VOIP, IP | IPV6, VPN, MPLS, PPP, Frame Relay, X.25, ISDN.
- Route protocols: BGP, OSPF, EIGRP. Knowledge in IPV6, VLSM. Ratio networks.
- Contact external teams from other providers.
- Sysadmin: Linux DEBIAN/CENTOS; Proxmox Virtualization.
- Monitoring tools: CACTI | SPECTRUM.
- Data Center Routines.
- Home office | Duty
